Population-Environment Balance is a national, non-profit membership organization dedicated to maintaining and improving the quality of life in the United States through population stabilization

Congress adjourned for electioneering but Senator Harry Reid and the Obama Administration didn't give. The Lame Duck session – as of this writing – continues the Threat that the Dream Act, as well as an even broader bill giving Amnesty to millions of Illegals will be foisted onto an unwilling citizenry. BALANCE continues to oppose this Injurious Amnesty as well as the Special Benefits for illegal aliens that the bill includes.

Dear Activist,

BALANCE fought the Dream Act in 2009 and, thanks to the Perfidious Open Borders Lobby in the Lame Duck Congress and the Obama Administration, the battle continues. Americans and our Environment face a continuing threat from Amnesty and Mass Immigration. Accordingly, and with your help, BALANCE and its ASAP! Coalition Allies are fighting hard as we turn the corner on 2010 and enter a new year.

In September, Senator Harry Reid tried to slick through the Dream Act with an Amendment to the must-pass Defense spending Bill. With 44 votes – a few Democrats helped - the Senate rejected Reid's effort to end debate through "cloture" and, therefore, forced the Dream Act and other provisions largely unrelated to defense into Congress' Lame Duck session. Open Borders advocates will not stop agitating for the Dream Act. The battle extends until 1] they win it or 2] patriots veto the Acts of those who would sell out United States citizens, including our working poor and 15 Million plus Unemployed.

The proposed so-called Dream Act offers a path to citizenship, in-state tuition, and other benefits to children brought to the US as minors, here for at least five years, and either attending a US college or joining the military. After six years, the beneficiaries of this Amnesty may apply for citizenship, which would entitle their relatives to preferred places in the immigration line.

Harry Reid and President Obama propose these benefits for people who violated our laws by being here in the first place! It is cynical and immoral either/both to give them the benefits of a subsidized higher education and an expedited path to citizenship, partly because one path entails signing them up to use as cannon fodder, as some in the government seem eager to do.

During 2010, Amnesty for the entire crowd of 25 to 30 million foreigners illegally in the United States receded as an issue because of the overwhelming public view that this pressure on the labor market, and our environment and health care and education infrastructure, is unacceptable --- a point that BALANCE has made for many years.

Nevertheless, the Stealth Effort to keep illegal aliens in the United States and to encourage more to come, continues. The Obama Administration has succeeded through the health care legislation, popularly known as Obamacare, in giving ILLEGAL ALIENS HEALTH CARE COVERAGE, despite promises to the contrary. A study of the House version of the health care bill by the Committee on Medical Services shows a multimillion-person increase in coverage numbers under H.R. 3962. The extent of increase – to include an alleged 50 million without healthcare insurance -- is a clear indication that Illegal Aliens are intended to be among the beneficiaries.

Moreover, as a trade-off to provide funds for Illegal Alien Coverage, Obamacare apparently SLASHES MEDICARE FUNDING FOR SENIORS by hundreds of millions. The 2000-page healthcare Bill may take months more to fully parse. As House Speaker Nancy Pelosi said, "Let's pass it so we can find out what's in it!"

Nevertheless, THE INTENT OF THE OBAMA ADMINISTRATION IS CLEAR--PROVIDE A PATH TO CITIZENSHIP AND HEALTH CARE COVERAGE TO MILLIONS OF ILLEGAL ALIENS AT THE EXPENSE OF AMERICAN CITIZENS.

Administration Undermines Border Patrol

As part of the ongoing effort, the Obama Administration with Janet Napolitano as chief of Homeland Security is undermining efforts to deport illegal aliens. The Obama Administration's Immigration and Customs Enforcement [ICE], part of the Department of Homeland Security, is now DISMISSING by the thousands the legitimate Deportation proceedings against Illegal Aliens. BALANCE bitterly opposes the "catch and release" policy that characterizes this Administrations attitude to immigration law enforcement.

Administration officials and immigrant-advocates pit Federal Might against Arizona and Sheriff "Joe."

Outrageously, Attorney General Eric Holder has also sued the State of Arizona and has sued Sheriff Joe Arpaio. The Obama Administration is investigating Maricopa County Sheriff for actually enforcing US immigration law and Arizona's new and very similar immigration law. BALANCE can continue with your help to support both Arizona's immigration law and Sheriff Joe Arpaio who has, almost single-handedly, done so much to restore order to Maricopa County, AZ.

Another Defeat for Cloture – which forces a Senate vote without debate or amendment.

The defeat another of Senator Reid's efforts at cloture, the "Disclose Bill" also was avoided in the past congressional session. Thus, BALANCE retains the legal right to speak freely about issues and candidates. Passage of the Disclose Bill could have prevented this letter from being written in its present form. So close to an election, the Disclose legislation would have made it illegal to name the particular politicians who are point-persons for Amnesty.

The Administration Tolerates a Crossborder Invasion by Illegal Aliens, including Human and Drug Traffickers and Mexican Drug Cartels

Also, in 2010, BALANCE alerted members to the Obama Administration policy of abetting drug and human traffickers in passing through, and trashing, our Buenos Aires National Wildlife Sanctuary located at the border by permitting water stations along the routes! Further, the national Park Service warns off citizens of Danger! The sign-posting regarding drug-trafficker and illegal alien smuggling routes is 200 miles from the Border with Mexico and within 30 miles of Phoenix!

Violence including the recent murder of an Arizona rancher and the shooting of **US Border Patrol agents!** This is news that the mainstream media suppress! BALANCE will continue to call attention to this travesty of a federal immigration policy. With your help, BALANCE will also step up reporting of Border violations.

With new legal immigrants and their offspring adding 2 million each year, plus another two million illegal aliens and their offspring added each year to our population, the face of our nation and environment is changing and will be altered forever if we don't take action.

A top priority for BALANCE in 2011 will be to expose how Obamacare, the unpopular, fiscally-unaffordable and possibly unconstitutional healthcare Bill secured through promises, exemptions, and further congressional maneuvers, acts as a magnet for illegal aliens and indeed, for mass immigration by any channel. The healthcare legislation will effectively shift funds from Americans who have paid in advance for care and for infrastructure to great numbers of newcomers. Indeed, the much bally-hooed figures that trumpeted "need," specifically 50 million medically-uninsured "Americans," was reached by adding in many medically-indigent recent immigrants and untold numbers of illegal aliens. All these benefits provided to immigrants increase the Magnet Effect and encourage ever more people to come to the USA thus increasing pressure on our environment, infrastructure, and budgets.

Moreover, BALANCE is monitoring congressional efforts to stop the practice of awarding citizenship to the US-born children of illegal aliens. A top legal question pertains to whether a constitutional Amendment is required to stop this practice, or whether a regulatory or congressional action will suffice.

One oft-cited case pertains to education. It was decided in Plyer v. Doe 457 US202 [1982] that, "A Texas Statute which withholds from local school districts any state funds for the education of children who were not 'legally admitted' into the United States, and which authorizes local school districts to deny enrollment to such children, violates the Equal Protection Clause of the Fourteenth Amendment."

More pertinent to citizenship and also harking back to the Fourteenth Amendment is U.S. v. Wong Kim Ark, 169 U.S. 649 (1898)

Summary of Wong Kim Ark:

Subjects of the Emperor of China, but domiciled residents at San Francisco. Wong Kim Ark was born in San Francisco in 1873. In 1895 he made a temporary visit to China and was refused admission to the United States "solely on the pretense that he was not a citizen of the United States."

"The evident intention, and the necessary effect, of the submission of this case to the decision of the court upon the facts agreed by the parties, were to present for determination the single question, states at the beginning of this opinion, namely, whether a child born in the United States, of parents of Chinese descent, who, at the time of his birth, are subjects of the emperor of China, but have a permanent domicile and residence in the United States, and are there carrying on business, and are not employed in any diplomatic or official capacity under the emperor of China, becomes at the time of his birth a citizen of the United States. For the reasons above stated [which includes a discussion of "subject to the jurisdiction of" in the 14th Amendment] this court is of the opinion that the question must be answered in the affirmative order affirmed."

A lawyerly interpretation of the U.S. v. Wong Kim Ark decision is that the parents were LEGALLY in the US and thus 'subject to the jurisdiction' thereof. Illegal aliens would not have a "permanent domicile" in the United States. Black's law dictionary defines domicile as "a person's legal home." The entire Black's definition advances multiple reasons why illegal aliens would not qualify as being "domiciled." [Black's Law Dictionary, 6th Edition.]

Policy to put the United States on a path to sustainable population size will need to address issues including automatic citizenship for the US-born children of illegal aliens. In addition, the continuous influx of illegal aliens must be stopped both through enhanced border enforcement, border barriers [the double, high fence], and interior enforcement of immigration law.

Moreover, BALANCE advocates change in legal immigration law. A Zero net Moratorium on Legal immigration is the target, and, indeed, the Only Policy which could eventually result in U.S. Population Stabilization.

IN SUM:

Population density is overwhelming and excessive. (Many of us can remember being told when we were young that we need to limit our families to two children to keep the country's resources available and open space plentiful. In 1972, the Rockefeller Commission concluded that the average American would be better off if population size stabilized, and at that time the US population was approximately 170 million) The actual U.S. population today is approaching 320 million.

In 2005, non-Hispanic whites had approximately 1.7 live births per woman and Hispanics had between 3 and 4 live births per woman. These findings were reported as live births per 1000 women: 58.3 for non-Hispanic whites; 67.2 for non Hispanic blacks; and 99.4 for Hispanics.

The schools are jammed and instruction is no longer strictly in English. How can we have a functioning society without English as the common language?

More than half of all school lunches are now paid for by us -the taxpayers -and not the families with the children.

22% of Americans are unemployed (www.shadowstats.com) and many of the rest suffer from wage depression resulting from mass immigration and more job applicants than jobs.

Excessive population growth as well as invasive species and diseases from other countries increasingly contaminate our food, air, water and land and over-burden our clinics and hospitals. (Did anyone say bedbugs?)

Today the parks are full, the utilities are overused, and the United States are running short of potable water. Communities are asked to build more schools hospital after hospital closes due to the costs of illegal's using such facilities with no payment. The overwhelming number of towns, counties, and States are broke. Freeways and bridges need repair, the prisons are overflowing with one in three inmates being foreign born and who can help? Towns, counties, and States are bankrupt and the federal government exists only by continuous printing of more fiat money, intrinsically worthless paper.

PLEASE put your paper money to best use: Share with BALANCE!

The only Solution is a zero-net immigration moratorium on legal immigration. Legal immigration adds over 2 million annually, and this is a seriously large number. Legal and illegal immigration are inextricably intertwined; legal immigrant communities act as magnets and refuges for Illegal Aliens.

Thus in order to stop Illegal immigration we must also push for a Moratorium on Legal. Pushing a Moratorium maximizes the pressure for Reductions and delegitimizes the whole policy of mass immigration.

This maximizes the pressure for reductions and counters the Open Borders mantra that "The solution to the Illegal immigration problem is to legalize all the Illegals."

A zero-net-moratorium on legal immigration would allow review of our process and an evaluation of our National needs and interests. Population Environment Balance is one of the few groups willing and able to push hard for a Moratorium.

BALANCE's Anti-Illegal Alien Amnesty Fight intensifies in 2011: The Zero-Net-Immigration Moratorium Initiative.

The push for a Moratorium on legal immigration is essential to the battle to stop illegal immigration because it generates downward pressure on both legal and illegal numbers.

Only by pushing for a MORATORIUM do we call the whole enterprise of mass immigration into question and generate sufficient clout to stop Illegal Alien Amnesty bills in a Congress which seems more and more inclined to open the floodgates.

BALANCE and it's ASAP! Coalition Allies are the only Organizations who are actually pushing a policy which could result in a stable population sufficient to save our environment for the long term.

If current trends continue the U.S. population will hit One Billion by 2075, with devastating consequences for our environment.

By supporting BALANCE with your Activism and your Donations, you can maximize the effect of all our efforts to prevent this Catastrophe.

Sincerely,

Population-Environment BALANCE
